Thank you so much, David.

One quick question: I do not understand the Category 2 wells – waste disposal wells that are not UIC Projects. My understanding was that waste disposal wells needed a UIC permit to conduct underground injection. Are there wells that do not need this permit?

Hollin

Hello Hollin, sorry for the delay in responding. We did receive a letter from the State on September 15<sup>th</sup>, along with several attachments. The letter and attachments are appended to this message.

Regards,  
David

Hello David,

Sorry to bother you with a brief question. I noticed that the second deadline for DOGGR, requiring the agency to submit an "initial assessment" on whether non-exempt aquifers have been contaminated, was a few days ago. Has DOGGR submitted anything to EPA yet? If so, are those materials publicly available?

Many thanks,

Hollin

Hello Mr. Kretzmann,

Attached please find a copy of the letter EPA sent to the Ca Natural Resources Agency and CalEPA. I'll need to forward the letter's two enclosures separately to adhere to our email size restrictions. Should you have any questions, please feel free to contact me.

Regards,  
David

**Subject:** Request for Letter to California

Hello Mr. Albright,

I hope this message finds you well. I left a phone message inquiring as to whether it's possible to obtain a copy of the letter EPA sent to the California Natural Resources Agency, Cal. EPA, and DOGGR requesting a variety of information pertaining to California's implementation of its Underground Injection Program. Please let me know if a copy might be available.

Thank you for your attention to this matter.

Sincerely,

**Hollin Kretzmann**
